For Immediate Release

Comtrol Corporation Selected for the 2009 M2M 100

MINNEAPOLIS—Nov. 20, 2008—Comtrol Corporation (http://www.comtrol.com), a worldwide leader in device connectivity solutions, today announced that it was named to M2M magazine's 2009 M2M 100 list. Published annually, the M2M 100 is a list of the most important and influential machine-to-machine technology providers as determined by M2M magazine's editors of editorial advisory board.

The M2M 100 list includes companies that the editors and editorial advisory board feel have the greatest impact on the machine-to-machine market and is compiled from a list of more than 300 companies. Selection criteria include strength and number of customer references; establishment in the market; growth potential; and active involvement in and support for the M2M community.

About Comtrol Corporation

Comtrol Corporation is a worldwide leader in device connectivity, industrial Ethernet gateways, and intelligent embedded device connectivity products for a wide range of industrial and hospitality applications. Comtrol products include RocketPort multi-port serial cards, and DeviceMaster Ethernet device servers, sold through more than 50 regional, national, and international distributors, as well as thousands of resellers and integrators worldwide.
