FOR IMMEDIATE RELEASE

New RocketLinx ES7105 Switch Expands Comtrol Corporation's Power Over Ethernet Product Line

MINNEAPOLIS, Minnesota — January 19, 2011—[Comtrol Corporation](#), a leading manufacturer of industrial device connectivity products, today introduced the [RocketLinx™ ES7105](#), the latest addition to its Power over Ethernet (PoE) product line. The RocketLinx ES7105 is an unmanaged IEEE802.3af compliant Power over Ethernet switch designed for a wide range of industrial PoE applications such as IP surveillance cameras, wireless access points, industrial sensors, and security card readers where a power source is not conveniently located.

The RocketLinx ES7105 is equipped with 4 PoE injector switch ports, with each port delivering power up to 15.4 watts, and one 10/100BASE-TX up-link port for transferring camera and other sensor data to the central network. Industrial-grade design features like the IP-31 rigid aluminum housing and wide operating temperature range ensure reliable operation in the widest variety of environments including mass transit vehicles, outdoor settings, and factories.

“The launch of our new RocketLinx ES7105 product adds an unmanaged Power over Ethernet product that also compliments our current managed PoE switch offerings,” said Bradford Beale, President of Comtrol. “For the past year, Comtrol’s physical security partners and customers have been looking for reliable, ruggedized, yet cost effective switches in the retail security and financial security space. With the RocketLinx ES7105, Comtrol has again exceeded our customers’ expectations.”

About Control Corporation

Control Corporation is an expert network advisor in device connectivity, industrial Ethernet gateways, and intelligent embedded device connectivity products for a wide range of enterprise, industrial, security, power utility, and traffic automation applications. The company's [RocketPort](#) multi-port serial card, [DeviceMaster](#) Ethernet device server, and [RocketLinx](#) industrial grade Ethernet and Power over Ethernet switch product lines are sold through regional, national and international distributors and by thousands of resellers and integrators worldwide. For more information, contact Control Corporation at 800-926-6876 or visit www.comtrol.com.
