Control Corporation to attend the Axis AE Technology Summit in Coronado, CA

MINNEAPOLIS, Minnesota – February 20th – **Control Corporation**, a leading manufacturer of industrial device communication products, will be attending the Axis AE Technology Summit. The event will be held in Coronado, California at the Coronado Island Marriot Resort and Spa from Wednesday February 24th at 6:00 PM to Saturday the 27th at 8:00 PM PT.

The Axis AE Technology Summit will feature many companies showcasing their best security products. Control will be featuring our **RocketLinx Power over Ethernet** switch products. The RocketLinx PoE series are ruggedized with drip-proof housings, redundant power inputs and performance command-line interfaces, these RocketLinx PoE switches provide reliable networking solutions.

Control Corporation joined Axis' TPP Program in April, 2013. Axis is the global market leader in innovative network video products for retail, transportation, critical infrastructure, perimeter security and public surveillance applications. "As a member of the Axis TPP program, Control is honored to participate in this event and will continue to improve product compatibility with Axis to increase successful product integration, and enhance end user experience", states Mark Pikkarainen, Control's Security General Manager.
